Quang-Tuan DANG

02/10/1995

Yau Mathematical Sciences Center, Tsinghua Univ.
China, 100084, Beijing, Haidian District
dangquangtuan10@gmail.com
quangtuandang.github.io/Webpage/

Research Interests

Complex and Differential Geometry, geometric analysis and PDEs, more precisely, complex de Monge-Ampère equations, canonical metrics, and geometric flows

Employment

2027– **Tenure-Track Assistant Professor**, *Shanghai Institute for Mathematics and Interdisciplinary Sciences (SIMIS), Fudan University, Shanghai*

2025–2027 **Postdoc**, *Yau Mathematical Sciences Center, Tsinghua University, Beijing, mentored by Shing-Tung Yau*

2022–2025 **Postdoc**, *International Centre for Theoretical Physics (ICTP), Italie, mentored by Claudio Arezzo*

Education

2019-2022 **Doctorat de Mathématiques Fondamentales**, *LMO, Université Paris-Saclay*
Title: Pluripotential Monge-Ampère flows
Advisors: Hoang-Chinh LU & Vincent GUEDJ

2017–2019 **Master de Recherche en Mathématiques Fondamentales**, *Université Paris-Saclay*

2013–2017 **Bachelor of Education**, *Hanoi National University of Education*
Excellent, Mathematics

Publications et preprints

2025 *Modulus of continuity of Monge–Ampère potentials in big cohomology classes* (with Hoang-Son Do, Hoang Hiep Pham), arXiv:2504.15763, accepted for publication in Indiana Univ. Math. J.

Singularities vs non-pluripolar Monge–Ampère masses (with Hoang-Son Do, Hoang Hiep Pham), **Math. Z. 311, 47 (2025).**

2024 *An iterative construction of complete Kähler-Einstein metrics* (with Tat Dat Tô), arXiv:2410.12599, accepted in Publ. RIMS Kyoto Univ.

Hermitian null loci, arXiv:2404.01126v1

2023 *Kähler–Einstein metrics on quasi-projective manifolds* (with Duc-Viet VU), **Math. Ann. 392, 4071–4103 (2025)**

Singularities of the Chern-Ricci flow, arXiv:2305.16461, to appear in **Anal. PDE Vol. 19 (2026), No. 3, 449–483**

Continuity of Monge-Ampère Potentials with Prescribed Singularities, **J. Geom. Anal. 33, 318 (2023).**

2022 *Pluripotential Chern-Ricci Flows*, **Indiana Univ. Math. J. 73 No. 4 (2024), 1401–1441**

2021 *Pluripotential Monge-Ampère flows in big cohomology classes*, **J. Funct. Anal. 282 (2022), no. 6, Paper No. 109373, 65 pp.**

Continuity of Monge-Ampère Potentials in Big Cohomology Classes, **Int. Math. Res. Not. IMRN 2022, no. 14, 11180–11201.**

Talks

May 2026	Seminar, Institute for Advanced Study in Mathematics of HIT, Heilongjiang, China
April 2026	Seminar, Westlake University, Hangzhou, China
Jan. 2026	IMFP-IGP Seminar, USTC Shanghai, China
Nov. 2025	Seminars, Beijing Normal University, Beijing, China
Nov. 2025	USTC complex geometry seminar, Hefei, China
June 2025	Workshop: Géométrique Algébrique et Géométrie Complexe, M'bour, Senegal
Jan. 2025	Analysis Seminar, Institute of Mathematics, VAST, Hanoi, Vietnam
Jan. 2025	Geometry Seminar, Hanoi University of Sciences, Hanoi
Dec. 2024	Séminaire Géométrie et Topologie, Brest
Dec. 2024	Séminaire d'Analyse et Géométrie, Jussieu
Oct. 2024	Seminari di Geometria Differenziale e Analisi Complessa, Florence, Italy
Sep. 2024	Conference: Progressi recenti in geometria reale e complessa XIII, 24-27 Sep, Levico Terme (Italy)
Aug. 2024	Gothenburg Complex Geometry, 26-30 Aug., Gothenburg (Sweden)
Sep. 2023	Workshop: Geometric flows on complex manifolds, 11-15 Sep, Cortona (Italy)
June 2023	ICTP-IGAP seminar, Trieste, Italy
Feb. 2023	Complex Geometry seminar, Cologne, Germany
Jan. 2023	Analysis Seminar, Institute of Mathematics, VAST, Hanoi, Vietnam
Nov. 2022	ICTP-IGAP seminar, Trieste, Italy
June 2022	International Workshop, AIAS, Aarhus, Denmark
June 2022	MARGE Workshop, IMAG, Montpellier, France
April 2022	IGA seminar, University of Maryland, New York, United States
Nov. 2021	Informal Workshop: Balanced metrics and Monge-Ampere masses, Parma, Italy
Oct. 2021	Séminaire de Géométrie Complexe, IMT, Toulouse
June 2021	Journée doctorale: Analyse, LMO, Orsay, France

Service

Referee for International Mathematics Research Notices, Acta Mathematica Vietnamica, Complex Manifolds, Complex Analysis and Operator Theory, Analysis & PDE, Indiana University Mathematics Journal, Pacific Journal of Mathematics

Reviewer for MathSciNet

Teaching

2025-2026	Differential Geometry (TA), Calculus (TA), Complex Geometry (TA)
2024-2025	Topology (12h TA), Partial Differential Equations (9h TA)
2023-2024	Partial Differential Equations (9h TA)
2022-2023	Partial Differential Equations (9h TA)
2021-2022	Analyse 3 en L2 (TD 36h), Mathématiques en L1 (32h TA), Python (6h TA)
2020-2021	Mathématiques en L1 (62h TA)

Languages

Vietnamese (mother tongue), English (fluent), French (fluent), Italian (intermediate), Chinese (basic)

Informatic

LaTeX, langue html, Python, Microsoft Office
